PANTONE 2020 Color of the Year

19-4052 Classic Blue

We are living in a time that requires trust and faith. It is this kind of constancy and confidence that is expressed by PANTONE 19-4052 Classic Blue, a solid and dependable blue hue we can always rely on. Imbued with a deep resonance, Classic Blue provides an anchoring foundation. A boundless blue evocative of the vast and infinite evening sky, Classic Blue encourages us to look beyond the obvious to expand our thinking; challenging us to think more deeply, increase our perspective and open the flow of communication.

PANTONE home + interiors 2020

Pantone Color and Design Trends for 2020 reveal:

- a fascinating dichotomy as a new era brings in both novel and nostalgic approaches to color and design
- kaleidoscopic colors twists into patterns or combinations that are authentic and real while other palettes appear somewhat surreal or out-of-the-ordinary
- a new era reinforcing the notion that muted and vibrant tones can co-exist
- that a traditional style, especially when tweaked with futuristic touches, offers an unusual and original approach to a product or an interior

Tea Garden Reminiscent of the art of the Japanese tea ceremony called *Wai of the Tea*, the colors and the mood of Tea Garden suggest a thoughtful aesthetic imbued with humility, simplicity, harmony, respect, and tranquility. Those same words could describe the thoughts embodied in the architecture of a tea garden, in the design of the containers that hold the tea, or the fascinating structure of a floral arrangement that might grace the table. A sense of ritual draws deep feeling from us, and encourages us to slow our pace just long enough to sip our tea and use all five senses to ground us in the "now." The nourishing colors used in the palette fit perfectly into its ethos: blue in the shades of sky and sea, earthy lavender-inflected Turbot, serene greens, both matcha-toned yellow-green and a pungent olive shade, and the bracing flavor of Mango.
